BOARD – EMPLOYEE COMMUNICATIONS

(School Board Policy # 2126)

The Board desires to maintain open channels of communication between itself and the employees of the District. The basic line of communication will, however, be through the Superintendent of Schools.

Staff Communications to the Board

All communication or reports to the Board or any Board sub-committee or advisory committee from staff members shall be submitted through the Superintendent. Staff members are also reminded that Board meetings are public meetings and, as such, provide an excellent opportunity to observe first-hand the Board's deliberations on problems of employee concern.

Board Communications to Staff

All official communications, policies, and directives of employee interest and concern will be communicated to employee members through the Superintendent, and the Superintendent shall employ all such media as are appropriate to keep employees fully informed of the Board's problems, concerns, and actions.

Visits to Schools

Individual Board members interested in visiting schools or classrooms will inform the Superintendent of such visits and make arrangements for visitations through the Principals of the various schools. Such visits shall be regarded as informal expression of interest in school affairs and not as "inspections" or visits for supervisory or administrative purposes. Official visits by Board members will be carried on only under Board authorization and with the full knowledge of the Superintendent and Principals.

Social Interaction

Staff and Board members share a keen interest in the schools and in educations generally, and it is to be expected that when they meet at social affairs and other functions, they will informally discuss such matters as education trends, issues, and innovations and general District problems. However, employee members are reminded that individual Board members have no special authority except when they are convened at a legal meeting of the Board or vested with special authority by Board action. Therefore Board and staff members shall avoid discussions of personalities or personnel grievances in these instances.

Temporary Alternative Duty is meant to be temporary and transitional in nature to return the employee back to full duty. This program will last as long as the employee continues to transition back to the position at full duty, but not longer than 18 months. Once the transition concludes, the Supervisor shall re-evaluate the temporary program in which the employee is participating.

This program is not intended to address those situations in which an employee has been deemed to be permanently disabled and unable to resume his/her previous position.

- b) The supervisor will work with the employee to facilitate a safe return to the work program with limitations listed by the treating physician. If a job description essential task analysis is needed for the treating physician to determine limitations, the employee will notify his/her supervisor. If necessary, the supervisor may contact the treating physician if additional information is needed regarding the employee's limitations.
- c) The employee shall obtain an updated medical form, completed by the treating physician following every medical appointment, but in intervals no longer than forty-five days. The form shall be returned to the supervisor.
- d) Additional modifications will be made to the temporary alternate duty program as necessitated by the treating physician's NH Workers' Compensation Medical Form. The supervisor will be responsible for reviewing the appropriateness of continuing the program or duty assignments as necessary.
- e) Steps a through d may be repeated until such time, but not longer than 18 months, as the employee is able to return to his/her normal position or has been determined to be permanently disabled.
- f) Appeals shall be in accordance with district procedures.

REDUCTION IN CLASSIFIED STAFF

(School Board Policy # 2606)

The School Board is responsible for providing an annual budget that meets the programming needs of the District's students. Appropriate staffing is included within that budget. The Building Administrator will forward this letter to the Superintendent's Office.

2. Involuntary

Involuntary termination from any position is subject to approval by the Superintendent of Schools or his/her designee. The Superintendent of Schools shall provide a written notice of termination to any employee who has been terminated.

Upon a written request and receipt of a written notice of pending termination of employment, an employee shall be entitled to be present for a review of their termination by the School Board.

CURRICULUM DEVELOPMENT, ADOPTION AND IMPLEMENTATION

(School Board Policy # 3005)

An important part of our students' education is the strength of the District's curriculum. Curriculum is a structure of concepts and skills that are taught to prepare students to become functioning citizens within a complex world. When curriculum is articulated and adopted, decisions on books, materials, supplies, and equipment are made to support that curriculum.

The Superintendent shall be responsible for establishing a process of curriculum review and development in the District and shall ensure that the appropriate committees to evaluate existing or

proposed curriculum are established and functioning properly. The Superintendent shall also ensure that all curriculum areas are reviewed in a timely manner for their compliance to State standards and frameworks, as well as their applicability to the needs of the community and students. Whenever possible, consideration should be given to the integration of 21st century tools, including but not limited to, digital technology and communication tools, as well as the inclusion of available community resources.

No significant alteration of the curriculum shall be made without the approval of the Board, and any comprehensive review of a curriculum area shall be approved by the Board prior to implementation of any recommendation from such review.

The School Board is responsible to approve and provide instructional materials used by Milford students to support the curriculum based upon the Superintendent's recommendation. Such materials should provide quality learning experiences for students through enrichment, support, accuracy, and fairness. Materials should be current and appropriate to the developmental level of students.

SELECTION OF INSTRUCTIONAL MATERIALS

(School Board Policy # 3025)

The School Board is responsible for providing current and appropriate instructional materials necessary for the implementation of approved curriculum and programs. Instructional materials include textbooks, teaching materials, media and software, equipment, and digital technologies that support effective instruction and student learning.

The Superintendent/designee is responsible for coordinating a periodic review and process for the updating of instructional materials. This includes assessment of curricular needs; budgetary guidelines and recommendations; textbook selection and adoption processes; purchasing, receiving and inventory procedures; and the sale, donation, and/or disposal of worn or outdated instructional materials.

CONTROVERSIAL ISSUES

(School Board Policy # 3030)

1. Statement of Philosophy

It is the very essence of the democratic process to provide for students appropriate opportunities for discussion of controversial issues. Students profit from studying appropriate and significant issues which face them in the world today. It is the District's responsibility to provide for those studies. It is also the District's responsibility to provide the sort of instruction which will make the study of controversial subjects a true learning experience.

2. Student's Rights to Study Controversial Issues

- a. Students shall have the right to study appropriate controversial subjects which have political, economic, or social significance and of which the students should begin to have an opinion.
- b. Students shall have the right to free access to all relevant and appropriate information, including materials that circulate within the community.
- c. Students shall have the right to study in an atmosphere free from bias and prejudice.

- d. Students shall have the right to form and express their own opinion on controversial issues without jeopardizing their relations with teachers in the school.

3. Role of Teachers

- a. Teachers shall receive approval of the Principal or immediate supervisor and, if necessary, the Superintendent of Schools, when in doubt regarding the advisability of discussing certain issues in the classroom and/or using controversial materials.
- b. Teachers shall not impose their own opinions on the class but rather strive to keep the discussion open for the honest expression of all views and the presentation of all facts.
- c. When appropriate and reasonable, teachers shall act as facilitators of the discussion of controversial issues in class, taking care to point out opposing views, opinions and statements which are not substantiated by credible evidence. Propaganda, bias and distorted information shall be clearly identified as such.
- d. When appropriate, teachers shall create an atmosphere of freedom in the classroom in which the students recognize their right to form and express opinions on controversial issues.
- e. When inviting guest speakers/presenters, teachers shall inform the guest speaker/presenter in writing of the following:
 - 1. Profanity, vulgarity, and lewd comments are prohibited.
 - 2. Smoking is not permitted.
 - 3. The teacher/sponsor responsible for inviting the guest speaker, or any member of the school administration has the right and duty to interrupt or suspend the proceedings if the conduct of the guest speaker is judged to be in poor taste or interfering with the legitimate educational purpose and goals of the school district.

4. Role of Administration

The Principal/designee shall ensure that no group or individual presents arguments on controversial issues directly to the students in the school without authorization. Teachers may, with the Principal's approval, invite representatives of differing viewpoints to discuss issues with the class in order to clarify points.

5. Challenged Materials

When objections to instructional material or presentations are made by individuals, the Principal shall ensure a process for review. As with library materials, the basic principles of the freedom to read and of the professional responsibility of the staff must be defended rather than the materials.

If a complaint is made, the procedures are as follows:

- 1. The complainant shall file his/her objections in writing to the Principal.
- 2. The Principal shall inform the Superintendent.

3. The Principal shall form a committee of relevant staff members to investigate the complaint. The committee shall ensure the following as part of its investigation:
 - a. Provide an opportunity for the complainant to orally present his/her objections to the committee prior to an investigation.
 - b. Examine materials and/or presentations referred to it.
 - c. Examine the general acceptance of the materials by reading reviews.
 - d. Examine the material/presentation as a whole and not particular passages pulled out of context.
 - e. Meet as a whole to discuss the materials and to prepare a report.
 - f. Meet with the complainant to present the findings of the report.
 - g. Provide an opportunity to the complainant to appeal the decision to the Superintendent of Schools.
 - h. Provide an opportunity to the complainant to appeal the Superintendent's decision to the School Board.

TITLE 1 PARENT INVOLVEMENT

(School Board Policy # 3065)

Statement of Purpose

The mission of the Milford School District's Title I Program is to support and inspire students to become skilled, independent, life-long learners by providing personalized instruction that meets individual needs, within a rich learning environment. Each child's success depends on an active partnership between school staff and families. Since neither can do this job alone, we enlist the help of families and the community to achieve success for all children.

Parent Involvement in Developing the Policy

An Advisory Committee, consisting of Title I parents, school staff, and the Title I Director, will meet to develop and annually review the District's Title I Parent Involvement Policy. The policy will be distributed to all parents of Title I students in the Milford School District.

Annual Meeting for Title I Parents

At an annual meeting held in the fall, parents will be given information about the Title I Program and its guidelines. At the annual meeting Title I staff will:

- Distribute copies of the District's Parent Involvement Policy
- Distribute copies of the HQT Summary, regarding teacher qualifications
- Distribute to parents written information regarding the results of their child's assessment and the content of the program in which their child will be participating.

The curriculum in use at the school will be described and available for parents to review and ask questions. Parents will have the opportunity to review academic assessments used to measure student progress. Proficiency levels students are expected to meet will be explained. At this time, parents of Title I students will be given the opportunity to volunteer to serve on a Parent Advisory Committee.

Parent Advisory Committee

Parent Advisory Committee members will work with school staff and the Title I Director to develop and evaluate policies, including the Parent Involvement Policy and the School-Parent Compact. The Committee will also collect data on the needs and interests of parents of Title I students in order to address these needs in presentations and/or at meetings. The Committee will meet at least three times a year to work together to develop Title I Family Nights to promote reading and mathematics and share effective reading and mathematics strategies.

Title I Family Nights/Meetings

Parents will be informed of meetings in writing and, if possible, by phone call. If there is a need expressed, and if funds are available, Title I will arrange for students and/or siblings to be cared for on-site during the meetings free of charge to the parents. In addition, if needed, and if funds are available, transportation will be made available to parents wishing to attend.

School-Parent Compact

According to Title I regulations, each school must share responsibility with the Title I parents for high student performance by developing a school-parent compact jointly with parents of children participating in the program. This compact must outline how parents, staff, and students will share responsibility for promoting high student achievement. Title I parents on the Advisory Committee will be involved in designing the compact. Parents will be encouraged to discuss the compact with their children before signing it and having their children sign it. Signing of the compact is voluntary, but will be strongly encouraged.

Types of Family Involvement

There are many ways in which families can become involved in their children's education. The Milford School District values both the at-home contributions and those which take place at school and in the community. Many types of family involvement are needed in a school-family-community partnership that will help all children succeed. We encourage families to read at home with children, access technology at home to support learning, participate with their children in programs offered at the Wadleigh Memorial Library, volunteer at school, and attend school events, including Title I Family Nights held throughout the year.

Staff-Parent Communication

Staff-Parent communication can take place in many different ways:

- Parent-Teacher Conferences
- Progress Reports
- Newsletters
- Meetings, phone calls, and classroom visits, as needed

School staff and parents are encouraged to take the initiative to contact each other. It is very important that staff-parent communication be clear, frequent, and two-way.

Evaluation

There will be an annual evaluation of the Parent Involvement Policy held in the spring. The evaluation will include an assessment of how much family involvement is increasing, and what barriers to parental participation still need to be overcome. The Milford School District will revise its Parent Involvement Policy on the basis of this annual review. In addition, parent feedback will be gathered to assess the Title I Program's effectiveness and to help inform future decisions about its scope and content.

* "Parents" and "Family" refer to all different types of care giving and guardianship relationships to which children belong.

ATTENDANCE, ABSENTEEISM AND TRUANCY

(School Board Policy 3515)

School-aged children enrolled in the District must attend school in accordance with all applicable state laws and Board policies

Absences Defined:

The School Board recognizes that absences from school may be necessary under certain circumstances. The Board recognizes two general types of absences; excused and unexcused. School officials determine whether a student's absences are excused or unexcused.

In general, the following are considered excused absences:

1. Absences due to illness, medical/dental appointments, or family emergencies.
2. Absences related to bereavement.
3. Religious reasons.
4. Waivers approved by the Superintendent under RSA 193:1, I
5. Other good cause as deemed acceptable by the Principal/designee.

In the event of a student's absence due to illness, bereavement, or religious observance, parents must contact the school and inform the school of the student's reason for absence. The Principal/designee may require parents/guardians to provide additional written documentation in support of their notice.

If parents/guardians wish for their child to be absent for reasons other than those listed above, the parent/guardian must provide a written explanation of the reason for the absence and the length of time the student will be absent. The Principal/designee shall make a determination as to whether the request meets good cause. Should the Principal/designee not authorize the request, the parents/guardians may appeal to the Superintendent.

Truancy:

- Truancy is an unexcused absence as determined by the School Principal/designee.
- Ten half days of unexcused absence during a school year constitute habitual truancy.
- Half day absences shall be defined as a student missing more than two hours of school time but less than three and one half hours of school time.
- Full day absences shall be defined as missing more than three and one half hours of school time.
- The Principal/designee is responsible for managing truancy within the school building.

Intervention Process:

1. When a student has accumulated six half-days of unexcused absences, the Principal/designee shall contact the parent/guardian to discuss the reasons for non-attendance.
2. When a student has accumulated eight half-days of unexcused absence, the Principal/designee shall contact the parent/guardian and request a meeting to discuss the matter and to develop an intervention plan to prevent further unexcused absences. The intervention plan may include an investigation into the causes of the truancy and strategies to prevent further truancy. The Principal/designee shall provide to the parent/guardian copies of RSA 193:1 and consequences should the student reach ten unexcused half-days. The Principal/designee shall also provide notice to the truant officer of the possibility of habitual truancy and may include the officer at the meeting with the parent. The Principal/designee will also consider whether the school record keeping practices and notification to parents or guardians of the child's absences have an effect on the child's attendance.
3. When a student has accumulated ten half-days, a truancy report shall be formally filed with the truant officer and the Principal/designee may report the situation to the New Hampshire Division of Child, Youth, and Family Services (DCYF). Parents/guardians shall be notified by certified mail.

Parental Notification:

The Principal shall ensure that parents and guardians are notified of this policy by including it annually in the school's student/parent handbook.

PROMOTION AND RETENTION

(School Board Policy # 3520)

The Milford School District recognizes that children learn at different rates and through varying styles. The District is committed to supporting the academic success of each student through personalized learning strategies. In general, most students demonstrate progress toward grade level standards that results in their promotion to the next grade level. While research does not

generally support retention as a long-term beneficial practice for children, on rare occasions, it may be best for some students to repeat a grade level.

Before considering a student for retention, it is important that school personnel and parents have met to discuss the student's academic progress and that collaborative efforts to produce a successful school year for the student have been attempted. The decision to recommend the retention of a student in a grade level shall be carefully deliberated by school administration, teachers, and parents. Factors that influence the decision for retention include the child's chronological age, physical size, academic, social, and emotional growth, and attendance. A review of the student's personalized learning profile and cumulative file, an analysis of standardized learning assessments, and examination of appropriate teaching and learning strategies for the next school year shall provide information necessary to make the best placement decision for the student. Under no circumstances shall retention be considered for punitive reasons.

Each School Principal shall develop specific building-level procedures for retention decision-making that ensure that parents, except in unusual situations, are given adequate notification and input into the process no later than January 31st. Principals shall develop procedures that will study the reasons for a student's lack of progress and that will support personalized efforts to attempt to enable the student's success. Advancement from one grade to the next at the high school level shall be determined by earned credits.

As per the New Hampshire Department of Education's Administrative Rules, final decisions of child placement shall rest with the Superintendent of Schools.

PARENTAL OBJECTIONS TO SPECIFIC COURSE MATERIAL

(School Board Policy # 3526)

In the event parents/guardians find specific course material objectionable, the parents/guardians may notify the Building Principal of the specific material to which they object and request that the student receive alternative instruction that meets state requirements in the particular subject area. This notification and request shall be in writing.

Parents may submit an alternative education proposal in writing to the Principal, and if the proposal is mutually agreeable, the proposal shall be implemented. The proposal must meet state minimum standards and any costs shall be borne by the parents/guardians.

The name of the parent or legal guardian and any specific reasons disclosed to school officials for the objection to the material shall not be public information and shall be excluded from access under RSA 91-A.

HOMEWORK

(School Board Policy # 3555)

The term homework refers to an assignment from a teacher to students that is a logical extension of classroom curricula and is designed to be completed outside of class time. Homework can include a variety of learning activities such as research, lesson application, practice, and enrichment.

In general:

1. Assignment expectations shall be clearly presented, so as to be understood by students.
2. Assignments shall be meaningful and purposeful.
3. Time requirements for daily homework assignments shall be consistent and appropriate to the age and abilities of the students.

4. Daily homework shall not require students to have to access materials not readily available in most homes, school libraries, or public libraries.
5. Homework completion expectations shall be reasonable and teachers shall ensure reasonable make-up procedures for legitimate personal circumstances of students.
6. Teachers shall ensure an appropriate value of homework in relation to the grading system.
7. Homework shall not be assigned for disciplinary purposes.

Detailed homework guidelines may be developed at the building levels in order to further address particular abilities and needs of students at each level. The Building Principal shall ensure that homework guidelines shall be clearly communicated to parents.

CLASS SIZE GUIDELINES

(School Board Policy # 3560)

When possible, the District shall adhere to all state laws and regulations pertaining to class size. When fiscal and/or facility limitations prevent such adherence, the District will seek alternative compliance through the New Hampshire Department of Education.

The District will strive to maintain the following class size ratios:

Kindergarten:	16:1
Grade One:	20:1
Grade Two:	22:1
Grades Three through Twelve:	25:1

ACCIDENTS AND FIRST AID CARE POLICY

(School Board Policy # 4024)

School authorities have the responsibility to provide emergency care to protect the life and comfort of a child when in the school or participating in school-sponsored activities until authorized treatment is secured. Following this, the child should be placed under the care of his/her parent/guardian, upon whom rests the responsibility for subsequent treatment. If the child is transported or care is transferred to emergency medical staff, subsequent treatment is the responsibility of the parents. When possible, the district shall ensure that CPR and/or First Aid trained adults are available for all school sponsored events and activities, such as field trips, school sports events, and other such gatherings that are planned for students.

In the event that the parent or other responsible person is not available, the school shall retain supervision over an ill or injured child until appropriate medical personnel have arrived.

The school cannot assume responsibility for accidents occurring at home or during non-school sponsored activities.

Injuries occurring during school or school-sponsored activities must be duly recorded. The school nurse shall notify the Principal/designee and parents/guardians at once of all significant injuries or illnesses requiring medical attention.

If any person in good faith renders emergency care at the place of the happening of any emergency, or while in transit in an ambulance or rescue vehicle, to a person who is in urgent need of care as a result of the emergency, and if the acts of care are made in good faith and without willful or wanton negligence, the person who renders the care is not liable in civil damages for his/her acts or omissions in rendering the care, as long as he/she receives no direct compensation for the care from or on behalf of the person cared for. Any person rendering emergency care shall

have the duty to place the injured person under the care of the physician, nurse, or other person qualified to care for such person as soon as possible and to obey the instructions of the qualified person. RSA 508:12

USE OF ALCOHOL ON SCHOOL GROUNDS

(School Board Policy # 4055)

No person shall drink or have in their possession any intoxicating beverage while on school property, including school grounds.

NO SMOKING POLICY

(School Board Policy # 4040)

State law prohibits students and adults from using tobacco products (including chewing tobacco, e-cigarettes, liquid nicotine and vaping devices) on school property at all times. Any person who violates this provision shall be guilty of a violation and subject to a fine of not less than \$100.

It is a violation of State law for minors to possess tobacco and tobacco products (see above). Any student found possessing tobacco products, shall be referred to the appropriate legal enforcement agency, and in addition shall be subject to the following:

1st offense	One (1) day Suspension (Grades K thru 12)
2nd offense	Three (3) day Suspension
3rd offense	Five (5) day Suspension

The Milford School District smoking policy shall be, at least, as restrictive as current State Statute.

MEDICATION POLICY

(School Board Policy # 4010)

Medication to be administered during school hours shall be regulated for the health and welfare of students. For clarification purposes, medication is defined within two categories, prescription and non-prescription. Prescription medications are those which are prescribed by a physician. Non-prescription medications are those available for public purchase without restrictions.

Prescription Medications

1. Prescription medications should not be taken during school hours unless it is impractical to achieve medical regimen at home. Medications prescribed three times per day, for instance, can be given every eight hours and thus, should not have to be given at school.
2. Prescription medications must be brought to and from school by parents or guardians (or students if 18 years or older) with a written order from a health care provider, contained in a properly labeled pharmacy bottle, and accompanied by a parent permission form (unless the student is 18 years or older). Regardless of the age of the student, all prescription medications will be brought to the school nurse for safe storage, except for those prescriptions listed in number 4 below.
3. Prescription medications, parent permission, and new health care provider orders must be supplied to the school nurse at the start of each school year. All forms must be received prior to administration of medicine during the current school year. This includes all daily, short term, and emergency medications. The result of non-compliance to supply the Health Office with the

above requirements will be at the discretion of the Principal after consultation with the School Nurse. School nurses are to notify parents of students who require medication of the need to secure new orders prior to June 1st of the preceding school year. Principals shall also provide notification through student/parent handbooks.

4. Prescription medications for asthma and severe allergic reactions (eg. inhalers and Epi-Pens) may be kept in the student's possession provided the health care provider's prescription for the medications and the directive for self-administration, as well as the parent/guardian permission form, are on file in the health office.
5. Unused prescription medications shall be brought home at the end of the school year by the parent or guardian or by students 18 years and older. Unclaimed prescription medications will be discarded at the conclusion of the school year.

Non-Prescription Medications

1. Non-prescription medications are discouraged for student use during school time. Such medications will not be made available to students from the nurse, Principal, or designee, unless permission is authorized in writing from a parent or guardian.

All Medications

1. The School Nurse shall be responsible for administering and observing the taking of medications. The Principal or designee, in the absence of the School Nurse, is permitted to assist and observe the taking of medications.
2. The School Nurse shall ensure that all medications that are provided to the school nurse are safely stored.
3. The School Nurse shall ensure that all medication distribution shall be recorded daily in a manner that is consistent with statewide regulations and in a manner that ensures a secure and detailed student medical history. Medications given for chronic conditions will be recorded annually on student's health records, if information is provided by the student or parent/guardian.

FIELD TRIP MEDICATIONS

(School Board Policy # 4070)

The following procedure is to be followed for medication which needs to be taken by a student while on a field trip.

1. Such Medications shall be provided by the parents/guardians in a pharmacy-labeled container. Medication may be transferred by the parent/guardian and/or school nurse/designee from this container to a separate pharmacy labeled container for the purpose of school trips or school sponsored activities.
2. The quantity of medication shall be a one-day supply, whenever possible, or as small a quantity as necessary.
3. The School's Field Trip Medical Release Form must be completed by the parents/guardians in order for a student to receive medication while on a field trip.

CHILD ABUSE

(School Board Policy # 5090)

Also Policy # 2408

It is the policy of the Milford School District that any teacher or other school employee who suspects that a child's physical or mental welfare may be adversely affected by abuse or neglect shall report to the Division of Children and Youth Services and gives the following information:

1. Name, address, age, and sex of student
2. Name and address of parent or caretaker
3. Name and address of the person allegedly responsible for abuse and neglect, if known
4. The name of siblings who may be in danger, if known
5. The nature and extent of injuries or description of neglect

It is not the responsibility of the school employee to prove that the child has been abused or neglected or to determine whether the child is in need of protection.

An abused child is a child under the age of eighteen (18) who has been sexually molested or exploited, been psychologically injured so that said child exhibits symptoms of emotional problems generally recognized to result from consistent maltreatment or neglect, or been physically injured by other than accidental means.

Neglect means the failure to provide necessary food, care, clothing, shelter, or medical attention for a child's physical, mental, and emotional health.

School personnel, who in good faith make a report of suspected child abuse or neglect, have immunity for any liabilities, civil or criminal. The good faith of the reporter is presumed.

The Division of Children and Youth Services Bureau of Child and Family Services is the State agency mandated to receive and investigate reports of suspected child abuse to determine whether or not abuse is occurring. This responsibility DOES NOT lie with the school.

All citizens of New Hampshire are mandated to make an oral report of any suspected child abuse immediately to the Bureau of Child and Family Services, New Hampshire Division for Children and Youth Services, a branch of the Department of Health and Human Services. School Personnel are specifically identified as mandated reporters.

Such an oral report is to be followed within forty-eight (48) hours by a written report, if requested, to the Bureau.

Schools must allow trained Bureau caseworkers and law enforcement personnel to enter school facilities, interview students, and audio or video tape the interview without the consent or notification of the parent or parents of a child if there is suspicion that the child has been abused or neglected.

Schools must allow the investigating caseworker from the Bureau to take, or cause to be taken, photographs and/or x-rays of children's injuries who are subjects of a child abuse report. Such photographs or x-rays may be taken without the consent of the child's parents or guardians.

The Bureau may request and shall receive any assistance and information from schools that will enable it to fulfill its obligations to complete an investigation into alleged child abuse.

Persons willfully failing to report are guilty of a misdemeanor, which, under New Hampshire law, can mean a sentence of up to a year in jail and a \$1,000 fine.

Under State "right to know" laws, parents maintain the right of access to information compiled in their child's school records. However, it is also the school's right to withhold certain information which identified either the person who made the report or those who cooperated in a subsequent

investigation, if the school believes the release of this information would be detrimental to the safety and interest of the reporting person.

CONCUSSIONS AND HEAD INJURIES

(School Board Policy 4085)

The School Board recognizes that concussions and head injuries may occur in students who participate in school-sponsored athletic activities. The Board acknowledges the risk of significant injury when a concussion or head injury is not properly evaluated and managed. The Board recognizes that the majority of concussions will occur in “collision” sports. However, in order to ensure the safety of all District student-athletes, this policy will apply to students involved in any intramural program conducted outside the regular school day or competitive student sports programs between schools in grades four through twelve as identified by the Principal for students in grades four and five, and by athletic directors at the middle and high school levels.

Duty to Educate and Inform

Consistent with the National Federation of High Schools (NFHS) and the New Hampshire Interscholastic Athletic Association (NHIAA), the District will utilize recommended guidelines, procedures and other pertinent information to inform and educate all District coaches, student athletes, and parents/guardians of the nature and risk of concussions or head injuries, including the dangers associated with continuing to play after a concussion or head injury.

Annually, the District will distribute head injury and concussion information to all parents/guardians of student-athletes in competitive sport activities prior to the student-athlete’s initial practice or competition.

Prior to the start of the season, all grade four through twelve coaches and advisors of school sponsored athletic activities including volunteers who directly supervise students, will complete training as recommended and/or provided by the NHIAA, the New Hampshire Department of Education, and/or other pertinent organizations. Training for experienced coaches shall occur at least once every two years. All coaches of competitive sport activities will comply with NHIAA recommended procedures for the management of head injuries and concussions.

Each spring, the Principal of students in grades four and five and athletic director/designee shall review any changes that have been made in procedures required for concussion and head injury management or other serious injury by consulting with the NHIAA, medical personnel, or other reliable resources. If there are any updated procedures, they will be adopted and used for the upcoming school year.

Identified sports include all NHIAA-sanctioned activities, including cheer/dance squads, and any other middle or high school sponsored sports or activities as may be determined by the school administration.

On an annual basis, concussion and head injury information shall be distributed to the student-athlete and the athlete’s parent/guardian prior to the student-athlete’s initial try-out, practice, or competition. This information may be included with the parent permission forms that allow students to participate in co-curricular athletics.

The Superintendent/designees will keep abreast of changes in standards regarding concussions and implement appropriate professional development activities.

Removal From Play and Protocol For Return To Play

Any coach, official, licensed athletic trainer, or health care provider who suspects that a student-athlete has sustained a head injury in a practice or game shall immediately remove the student-athlete from play. A student-athlete who has been removed from play shall not return to play on the same day or until he/she is evaluated by a health care provider and receives written medical clearance and authorization from that health care provider to return to play. The student-athlete shall also present written permission from a parent/guardian to return to play. Athletic Directors, and the Principal of students in grades four and five, shall develop and implement an appropriate "return to play, medical clearance" form.

The District may limit a student-athlete's participation as determined by the student's treating health care provider.

Academic Issues in Concussed Students

In the event a student is concussed, regardless of whether the concussion was a result of a school-related or non-school-related activity, school district staff should be mindful that the concussion may affect the student's ability to learn. In the event a student has a concussion, that student's teachers will be notified by the Principal/designee. Parents/guardians are encouraged to contact the school Principal/designee should the concussion occur during a non-school activity. Teachers shall report to the school nurse if the student appears to have any difficulty with academic tasks that the teacher believes may be related to the concussion. The school nurse will notify the student's parents and treating physician. Administrators and district staff will work to establish a protocol and course of action to ensure the student is able to maintain his/her academic responsibilities while recovering from the concussion.

Section 504 accommodations may be developed in accordance with applicable federal law and board policies.

Education in the General Curriculum

To the extent possible, the Board encourages the administration to implement concussion awareness and education into the District's physical education and/or health education curriculum. The administrative decision will take into account all relevant considerations, including time, resources, access to materials, and other pertinent factors.

School and Playground Activities

Any staff member who observes or suspects that a student has sustained a head injury shall immediately contact the school nurse. The nurse shall then implement appropriate standards of care for the student and report the injury to the parents as soon as possible.

STUDENT DRUG AND ALCOHOL POLICY

(School Board Policy # 4045)

The use, sale, transfer, distribution, possession, or being under the influence of unauthorized prescription drugs, alcohol, narcotics, unauthorized inhalants, controlled substances and illegal

drugs is prohibited on any school district property, in any district-owned vehicle, or in any other district-approved vehicle used to transport students to and from school or district activities. This prohibition also applies to any district-sponsored or district-approved event. The use, sale, transfer or possession of drug-related paraphernalia is also prohibited.

For the purposes of this policy, a controlled substance shall include any controlled substance as defined in the Controlled Substances Act, 21 U.S.C. §812(c), or RSA 318-B, Controlled Drug Act.

Students may only be in possession of medication as detailed in Board Policy 4010. Searches of persons reasonably suspected to be in violation of this policy will be conducted in accordance with Board Policy 5095.

Any student who is found by the administration to be in violation of this policy shall be reported to the local law enforcement agency and subject to disciplinary action up to and including suspension, expulsion, or other discipline in accordance with the District's disciplinary policy. Strict compliance is mandatory. The school Principal/designee shall immediately report all incidents involving a

controlled substance to the appropriate local law enforcement agency and the Superintendent. All controlled substances shall be turned over to local law enforcement.

(School Board Policy # 4050)

The Milford School District provides a drug-free workplace in accordance with the Drug-Free Workplace Act of 1988 and its implementing regulations. The School District certifies that it will:

1. Notify all employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in school buildings, vehicles, and property owned and maintained by the District, and in established Drug Free School Zones.
2. Implement any of the following disciplinary actions (either alone or in combination) regarding an employee who is in violation of the policy:

 - b. Termination of employment.
 - c. Satisfactory participation in a drug abuse assistance or rehabilitation program approved for such purposes by a federal, state or local health or law enforcement, or other appropriate agency, or as mandated by court order.
3. Establish a drug-free awareness program to inform employees about the dangers of drug abuse in the workplace, the District's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation and employee assistance programs, and the penalty that may be imposed on employees for drug abuse violations occurring in the workplace.
4. Make it a requirement that each employee be given a copy of this Policy.
5. Notify the employee that, as a condition of employment, the employee will abide by the terms of the Policy and will notify the District of any criminal drug statute conviction for a violation occurring in the workplace no later than five (5) days after such conviction.
6. Notify the granting agency within ten (10) days after either receiving notice from an employee or otherwise receiving notice of such conviction.
7. Within thirty (30) days of receiving notice with respect to any employee who is so convicted, take appropriate personnel action against such an employee, up to and including termination, and/or require such employee to participate satisfactorily in a drug abuse assistance or

rehabilitation program approved for such purposes by a Federal, State, or Local health law enforcement, or other appropriate agency.

8. Make a good faith effort to continue to maintain a drug free workplace through implementation of all the provisions of this Policy.

FAMILY MEDICAL LEAVE

(School Board Policy # 4065)

The School District will comply with the provisions of the Family and Medical Leave Act of 1993.

All Requests for such leave will be made to the Superintendent of Schools as detailed in the following District FMLA procedures.

Contact the Human Resources Department to request a FMLA Packet and complete the Family and Medical Leave of Absence Request Form and Payment Recovery Form. Submit the completed forms to your Building Administrator for approval, and send the signed forms to the Superintendent's Office thirty days prior to the absence period, when possible. Medical certification from a qualified physician must accompany this request. You will be notified of your eligibility for leave.

USE OF AUTOMATED EXTERNAL DEFIBRILLATORS

(School Board Policy # 6011)

The School Board authorizes the use of Automated External Defibrillators (AED's) in emergency situations. The use, administration, and maintenance of the AED's is subject to the following conditions:

1. **Location of the AED's:** The Principal, following consultation with all appropriate staff, shall select the location for placement of the AED's.
2. **CPR/AED Training:** CPR/AED training will be offered by the school nurse or other certified instructor to all District employees. The District shall provide opportunities for staff to maintain certification. Each Principal/designee shall maintain a list of CPR/AED certified staff in his/her building.

4. **Registration:** All AED's shall be registered with the New Hampshire Department of Safety by the School Nurse.
5. **Incident Reporting:** The School Nurse/designee shall report all instances of AED use to the Superintendent, Building Principal, and New Hampshire Department of Safety.
6. **Liability Limitation:** The District and persons involved in the use of AED's shall enjoy the limitation of liability as specified in RSA 153:A-31 as well as other sources of law.

7. **Response Plans:** The Building Principal shall include CPR/AED emergency response plans in the staff handbook and shall ensure an annual review of those plans with the school staff. Building Principals shall also provide appropriate CPR/AED information in student/parent handbooks.

STUDENT RECORDS AND ACCESS

(School Board Policy # 5020)

The Superintendent shall develop such procedures as are necessary to comply with the Federal Family Educational Rights and Privacy Act (FERPA), the Health Insurance Portability and Accountability Act (HIPAA), and other applicable statutes governing student records.

The Principal of each school will be the custodian of all student records for that school. Students and parents will have access to their school records. The school will notify parents and adult students annually of the following:

1. The type of records kept.
2. The procedure for inspecting and copying records.
3. The right for interpretation.
4. The right to challenge data thought to be erroneous, the procedures for correcting or expunging erroneous data or inserting a rebuttal statement.
5. The right to lodge a complaint with the U.S. Department of Education if mandates are not adequately implemented.

Additionally, the district will notify parents annually of the district's policy on the collection or use of personal information collected from students for the purpose of marketing or selling that information or otherwise providing that information to others for that purpose, including arrangements to protect student privacy that are provided by the agency in the event of such collection, disclosure or use.

The education records or school records include all materials directly related to a student that a school maintains. Records and notes maintained by a teacher, administrator, school physician, therapist, or school psychologist for his/her own use, and which are not available to others are exempt from this definition.

The school will require a prior written consent before information other than directory information may be divulged to third parties. An exception to this rule exists for school district employees who have legitimate interests in viewing the records, as well as officials in other schools, which the student seeks to enroll. A school district in which a student is enrolled or is in the process of enrolling in may request the student's education records from any district in which the student was formally enrolled to ascertain safety issues in incoming students and ensure full disclosure. The records, including the student's disciplinary records, will be forwarded to the requesting district within three (3) business days. Disciplinary records shall include but not be limited to all information that relates to a student assaulting, carrying weapons, possessing illegal drugs, including alcohol, and any incident that poses a potential dangerous threat to students or school personnel. Disciplinary records shall ensure appropriate confidentiality of all individuals.

When the schools transfer records to new educational institutions, the schools must notify parents of the transfer and of their right to review and contest the material. An exception exists for material under court order. Parents must be notified of such order prior to release

The district may disclose, without the consent or knowledge of the eligible student or parent, personally identifiable information in the educational records of a student to the Attorney General of the United States or his/her designee in response to an ex parte order in the connection with the

investigation or prosecution of terrorism crimes. The district is not required to record such disclosure of information and is protected from liability for disclosing such information in good faith.

Requests for Student Records From the School Board:

Requests for access to student records must come from the Board Chair and must have been voted upon by the entire Board. Requests from individual board members to view student records will be denied. Such requests should be in writing. Any request from the Board to view or access student records must state and include a legitimate educational interest. "Legitimate educational interest" refers to any authorized interest or activity undertaken in the name of the school district. Board access to student records must be necessary or appropriate to the operation of the school district or to the proper performance of the educational mission of the Board.

Military Recruiters/Institutions of Higher Learning:

Military recruiters or institutions of higher learning shall have access to approved directory information, unless a secondary student or the parent of the student requests that such information not be released without prior written parental consent. The district shall notify parents of the option to make such a request and shall comply with any requests received. The school administrator may make the determination of when the recruitment meetings are to take place and reserves the right to deny such meeting where the holding of such meeting will materially and substantially interfere with the proper and orderly operation of the school.

LOST BOOKS AND MATERIALS

(School Board Policy # 5045)

The School Principal/designee will develop and implement collection procedures from students and others responsible for lost or damaged school books and materials. Except for unique circumstances, it is expected that full replacement value of the book will be received. Such collected funds will be processed through the Business Administrator's office for accountability purposes.

NOTIFICATION OF DISCLOSURE OF DIRECTORY INFORMATION

(School Board Policy # 5025)

In accordance with the Family Educational Rights and Privacy Act (FERPA), directory information is defined as follows: a student's name, address, telephone number, date of birth, and grade level; a student's parent's and/or guardians' names and address; a student's participation in school activities; a student's diploma, certificate, and awards; the height and weight of members of athletic teams.

The Milford School District will comply with all state and federal laws regarding the disclosure of student information as described in Policy 5020. Specifically, this information will be released to organizations that will not profit from it and/or will bring value to our students. This includes such organizations as the Parent-Teacher Organizations and school Booster Clubs. Directory information will also be released, unless parents/guardians notify the school otherwise, to newspapers and media, school yearbooks and school newspapers, activity programs, and the District or school's website. Parents will have the opportunity at the beginning of the school year to notify the schools of their desire not to have directory information released.

No directory information shall be released to individuals, organizations, and companies for the purpose of commercial profit.

WEAPONS ON SCHOOL PROPERTY

(School Board Policy # 5008)

Guns and Firearms – Students:

Any pupil who brings or possesses a firearm as defined in section 921 of Title 18 of the United States Code in a safe school zone as defined in RSA 193-D:1 without written authorization from the Superintendent or designee shall be expelled from school by the local school board for a period of not less than 12 months. This expulsion may be modified by the Superintendent upon review of the specific case in accordance with other applicable law.

Weapons are not permitted in school buildings, on school property, in school vehicles or at school-sponsored activities. This policy applies to students and members of the public alike.

Student violations of this policy will result in both school disciplinary action and notification of local law enforcement authorities.

Members of the public who violate this policy may be reported to local law enforcement authorities, if possession of the weapon is used in a threatening, harassing or intimidation manner.

Exceptions to this policy:

Students and staff who possess items that are course or job related. Examples include (but are not limited to) custodians possessing pocket knives and culinary teachers and students as well as kitchen staff possessing carving knives.

The Superintendent or other building administrator may exercise his/her best judgment in determining the scope of this policy as it relates to inadvertent or unintentional violations of this policy by adults, provided such inadvertent or unintentional violation of this policy does not affect the safety of students, school staff or the public.

II. Statement Prohibiting Bullying or Cyberbullying of a Pupil:

The Board is committed to providing all pupils a safe and secure school environment. This policy is intended to comply with RSA 193-F. Conduct constituting bullying and/or cyberbullying will not be tolerated and is prohibited.

1. Occurs on, or is delivered to, school property, school busses, or a school-sponsored activity or event on or off school property; or
2. Occurs off of school property or outside of a school-sponsored activity or event, if the conduct interferes with a pupil's educational opportunities or substantially disrupts the orderly operations of the school or school-sponsored activity or event.

III. Statement of False Accusations and/or Prohibiting Retaliation:

False Accusations:

A student found to have wrongfully and intentionally accused another of bullying shall be subject to disciplinary consequences and/or interventions designed to address the behavior.

A school employee found to have wrongfully and intentionally accused a student of bullying shall be subject to discipline or other consequences to be determined in accordance with applicable law, District policies, procedures and collective bargaining agreements.

Reprisal or Retaliation:

The District shall discipline and take appropriate action against any student, volunteer, or employee who retaliates against any person who makes a good faith report of alleged bullying or against any person who participates in a proceeding relating to such bullying. 1. Any student who believes he or she has been the victim of bullying should report the alleged acts immediately to the Principal/designee. If the student is more comfortable reporting the alleged act to a person other than the Principal/designee, the student may tell any school district employee or volunteer about the alleged bullying.
2. Although students, parents, volunteers and visitors may report anonymously, formal disciplinary action may not be based solely on an anonymous report. Independent verification of the anonymous report shall be necessary in order for any disciplinary action to be applied.
3. Upon receipt of a report of bullying, the Principal shall commence an investigation consistent with the provisions of Section XI of this policy.

Staff Reporting:

1. An important duty of the staff is to report acts or behavior that they witness that appears to constitute bullying. Any school employee or volunteer who witnesses, receives a report of, or has knowledge or belief that bullying may have occurred shall inform the Principal/designee as soon as possible, but no later than the end of that school day.
2. All District employees and volunteers shall encourage students to tell them about acts that may constitute bullying. For young students, staff members may provide direct assistance to the student.

The District shall annually report substantiated incidents of bullying and cyberbullying to the NH Department of Education.

IX. Notifying Parents/Guardians of Alleged Bullying:

The Principal/designee shall report to the parents/guardians of a student who has been reported as a victim of bullying and to the parents of a student who has been reported as a perpetrator of bullying within 48 hours of receiving the report. Such notification may be made by telephone, writing or personal conference. The date, time, method, and location (if applicable) of such notification and communication shall be noted in the report. All notifications shall be consistent with the student privacy rights under the applicable provisions of the Family Educational Rights and Privacy Act of 1974 (FERPA).

X. Waiver of Notification Requirement:

The Superintendent may, within a 48 hour time period, grant the Principal/designee a waiver from the requirement that the parents/guardians of the alleged victim and the alleged perpetrator be notified of the filing of a report. A waiver may only be granted if the Superintendent deems such a waiver to be in the best interest of the victim or perpetrator. Any waiver granted shall be in writing.

XI. Investigation Procedures:

1. Upon receipt of a report of bullying, the Principal/designee shall, within 5 school days, initiate an investigation into the alleged act. If the Principal/designee is directly and personally involved with a complaint or is closely related to a party to the complaint, then the Superintendent shall direct another District employee to conduct the investigation.

6. The Principal/designee shall complete the investigation within 10 school days of receiving the initial report. If the Principal/designee needs more than 10 school days to complete the investigation, the Superintendent may grant an extension of up to 7 school days. In the event such extension is granted, the Principal/designee shall notify in writing all parties involved of the granting of the extension.
7. Whether a particular action or incident constitutes a violation of this policy shall require a determination based on all facts and surrounding circumstances and shall include

recommended remedial steps necessary to stop the bullying and a written final report to the Principal/designee.

XII. Response to Remediate Substantiated Instances of Bullying:

Students and/or staff members facing discipline shall be afforded all due process required by law. Consequences and appropriate remedial actions for a student or staff member who commits one or more acts of bullying or retaliation may range from interventions up to and including expulsion of students and dismissal from employment for staff members.

Consequences for a student who commits an act of bullying or retaliation shall be varied and graded according to the nature of the behavior, the developmental age of the student, and the student's history of problem behaviors and performance. Remedial measures shall be designed to correct the problem behavior, prevent another occurrence of the problem, protect and provide support for the victim, and take corrective action for documented systematic problems related to bullying.

XIII. Reporting of Substantiated Incidents to the Superintendent:

The Principal/designee shall forward all substantiated reports of bullying to the Superintendent upon completion of the Principal's/designee's investigation.

XIV. Communication with Parents upon Completion of Investigation:

1. Within two school days of completing an investigation, the Principal/designee shall notify the students involved in person of the results of the investigation.
2. Within two school days, the Principal/designee shall notify by telephone the parents/guardians of the alleged victim and alleged perpetrator of the results of the investigation. Such notification shall be followed in writing within five school days.
3. In accordance with the Family Educational Rights and Privacy Act and other law concerning student privacy, the District will not disclose educational records of students including the discipline and remedial action assigned to those students and the parents of other students involved in a bullying incident.

XV. Use of Video and/or Audio Recordings in Student Disciplinary Matters:

In accordance with RSA 570-A, Wiretapping and Eavesdropping, Section 570-A:2, and with Milford School Board Policy 2315, Student Transportation Management, Section 3, the District reserves the right to use such audio and/or video recordings on District property, including school buses, to ensure the safety and welfare of all, and to be used when applicable, as part of student discipline proceedings.

XVI. School Officials:

The Superintendent of Schools is responsible for ensuring that this policy is implemented.

INTERVIEWING STUDENTS

No student shall be interviewed or questioned during the time they are in school by persons other than the school staff without prior permission from the principal or his designee. The Principal shall approve requests based upon consent given by the student if he/she is eighteen years of age or older or the parent or guardian.

GIFTED/TALENTED EDUCATION

(School Board Policy # 3060)

It is the policy of the Milford School Board that its schools address the unique learning needs for its gifted and talented students.

The procedures for the identification of Gifted and Talented students and the implementation of programming are determined at the appropriate building levels.

DISCIPLINE AND DUE PROCESS

(School Board Policy # 5007)

Inappropriate student conduct that causes material and substantial disruption to the school environment, interferes with the rights of others, or presents a threat to the health and safety of others will not be tolerated. Students are expected to exhibit appropriate behavior.

Students will conduct themselves in a manner appropriate to their age level and maturity and with respect and consideration for the rights of others while on school district property or property within the jurisdiction of the school district; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district. Consequences for the misconduct will be fair and developmentally appropriate in light of the circumstances.

Students who fail to abide by this policy and the school regulations supporting it may be disciplined for conduct which disrupts or interferes with the education program; conduct which disrupts the orderly and efficient operation of the school district or school activity; conduct which disrupts the rights of other students to participate in or obtain their education; conduct that is violent or destructive; or conduct which interrupts the maintenance of a disciplined atmosphere. Disciplinary measures include, but are not limited to, removal from the classroom, detention, suspension, probation, and expulsion.

Suspension means an in-school suspension, an out-of-school suspension, and/or a restriction from activities or loss of eligibility. Student conduct that disrupts instruction or impacts the rights of others may be cause for disciplinary action, including suspension.

No teacher, administrator, student, or other person will subject a student to corporal punishment or condone the use of corporal punishment by any person under his or her supervision or control. Permission to administer corporal punishment will not be sought or accepted from any parent, guardian, or school official.

Physical restraint is authorized when needed to protect the safety of the individual student and/or other students and employees. Documentation of any incident requiring such restraint will be provided to the Principal.

USE OF RESTRAINT AND SECLUSION

(School Board Policy # 5013)

A. Definitions:

1. "Restraint" means bodily physical restriction, mechanical devices, or any device that immobilizes a person or restricts the freedom of movement of the torso, head, arms, or legs. It includes mechanical restraint, physical restraint, and medication restraint used to control behavior in an emergency or any involuntary medication. It is limited to actions taken by persons who are school or facility staff members, contractors, or otherwise under the control or direction of a school facility.
2. "Restraint" shall not include:
 - a. Brief touching or holding to calm, comfort, encourage, or guide a child, so long as limitation of freedom of movement of the child does not occur.
 - b. The temporary holding of the hand, wrist, arm, shoulder or back for the purpose of inducing a child to stand, if necessary, and then walk to a safe location, so long as the child is in an upright position moving toward a safe location.
 - c. Physical devices, such as orthopedically prescribed appliances, surgical dressings and bandages, and supportive body bands, or other physical holding when necessary for routine physical examinations and tests or for orthopedic, surgical, and other similar medical treatment purposes, or when used to provide support for the achievement of functional body position or proper balance or to protect a person from falling out of bed, or to permit a child to participate in activities without the risk of physical harm.
 - d. The use of seat belts, safety belts, or similar passenger restraints during the transportation of a child in a motor vehicle.
 - e. The use of force by a person to defend himself or herself or a third person from what the actor reasonably believes to be the imminent use of unlawful force by a child, when the actor uses a degree of such force which he or she reasonably believes to be necessary for such purpose and the actor does not immobilize a child or restrict the freedom of movement of the torso, head, arms, or legs of any child.

3. "Medication restraint" occurs when a child is given medication involuntarily for the purpose of immediate control of the child's behavior.
4. "Mechanical restraint" occurs when a physical device or devices are used to restrict the movement of a child or the movement or normal function of a portion of his or her body.
5. "Physical restraint" occurs when a manual method is used to restrict a child's freedom of movement or normal access to his or her body.
6. "Seclusion" means the involuntary placement of a child alone in a place where no other person is present and from which the particular child is unable to exit, either due to physical manipulation by a person, a lock, or other mechanical device or barrier. The term shall not include the voluntary separation of a child from a stressful environment for the purpose of allowing the child to regain self-control, when such separation is to an area which a child is able to leave. Seclusion does not include circumstances in which there is no physical barrier between the child and any other person or the child is physically able to leave the place. A circumstance may be considered seclusion even if a window or other device for visual observation is present, if the other elements of this definition are satisfied.

B. Procedures for Managing the Behavior of Students:

The Superintendent/designee is authorized to establish procedures for managing the behavior. Such procedures shall be consistent with this policy and all applicable laws. The Superintendent/designee is further authorized to establish any other procedures necessary to implement this policy and/or any other legal requirements.

C. Circumstances in Which Restraint May Be Used:

Restraint will only be used to ensure the immediate physical safety of any person when there is a substantial and imminent risk of serious bodily harm to the student or others.

Restraint will only be used by trained school staff. Trained staff are those individuals who successfully complete and stay current in a training program that results in acquisition of skills in preventing restraints, evaluating risk of harm in an individual situation, use of approved techniques, and monitoring the effect of the restraint. The District shall identify personnel to be trained in the use of prevention strategies and physical restraint procedures. Staff will receive ongoing training to maintain the requirements of the training program chosen by the District.

Restraint will not be used as punishment for the behavior of a student.

Restraint will not be imposed for longer than is necessary to protect the student or others from the substantial and imminent risk of serious bodily harm.

No period of restraint of a student may exceed 15 minutes without the approval of a supervisory employee designated by the director to provide such approval. No period of restraint of a student may exceed 30 minutes unless an assessment of the mental, emotional, and physical well-being of the student is conducted by a trained and authorized employee.

D. Circumstances in Which Seclusion May Be Used:

The School Board recognizes the statutorily imposed conditions of seclusions and hereby adopts those conditions as defined by RSA 126-U:5-b, Conditions of Seclusion.

II. Each use of seclusion shall be directly and continuously visually and auditorially monitored by a person trained in the safe use of seclusion.

Seclusion may only be used when a student’s behavior poses a substantial and imminent risk of physical harm to the student or others.

Seclusion will be used only by trained school staff.

Seclusion will not be used as a form of punishment for the behavior of a student.

E. Prohibition of Dangerous Restraint Techniques:

The School Board recognizes and hereby prohibits the user of “dangerous restraint techniques” as defined in RSA 126-U:4, Prohibition of Dangerous Restraint techniques. No school or facility shall use or threaten to use any of the following restraint and behavior control techniques:

Each notification/report prepared under this section shall be retained by the school for review in accordance with state board of education rules and the department of health and human services rules.

If a school employee has intentional physical contact with a student in response to a student's aggressive misconduct or disruptive behavior, the building principal/designee will make reasonable efforts to inform the student's parent/guardian as soon as possible, but no later than the end of the school day or the time of the return of the child to the parent/guardian, whichever is earlier. The building principal/designee will also prepare a written report of the incident within five business days of the incident. Whenever a student is transported to a location outside the school, the Superintendent/designee will ensure that all reasonable and appropriate measures consistent with public safety are made to transport or escort the student in a manner which:

1. Prevents physical and psychological trauma;
2. Respects the privacy of the child; and
3. Represents the least restrictive means necessary for the safety of the child.

Whenever a student is transported using mechanical restraints, the Superintendent/designee will document in writing the reasons for the use of the mechanical restraints.

HAZING

(School Board Policy # 5014)

No person associated with any organization sanctioned by the School District shall engage in or be associated with hazing, nor shall any such person participate in any secret fraternity or organization that is related to a District-sanctioned activity.

Student hazing means any act directed toward a student, or any coercion or intimidation of a student, to act or participate in, or submit to any act, when:

- 1) Such act is likely, or would be perceived by a reasonable person, as likely to cause physical or psychological injury to any person; and
- 2) Such act is a condition of initiation into, admission into, continued membership in, or association with any organization, even if the student willingly participates in the activity.

Hazing is further defined as an activity which recklessly or intentionally endangers the mental or physical health or safety of a student for the purpose of initiation, admission, or affiliation with any organization sanctioned by the District.

“Endanger the physical health” shall include, but is not limited to, such physical acts as whipping, beating, branding, exposure to elements, forced consumption of food, alcohol, or drugs, or any forced physical activity, outside of that associated with acceptable athletic conditioning appropriate to the sport, that could adversely affect the physical health or safety of an individual.

Students or employees who violate this policy will be subject to disciplinary action up to and including expulsion for students and termination for employees. All incidents of hazing should be reported to school authorities. The Superintendent/designee shall report to local law enforcement officials incidents of reported hazing to which he/she has knowledge.

Any student being released during the school day must be released through the school office when he/she leaves and must report to the office when he/she returns, except that students who are ill may also be released through the Nurse's office.

Students traveling on school buses to school-sponsored activities will return from the activity on the bus unless released to their parents/guardians, or authorized in writing by their parents or guardians to travel home with someone else.

DISTRIBUTION OF PRINTED MATERIALS

(School Board Policy # 5075)

One of the strongest links of communications between the District and the public is the pupil in the classroom.

The school administration shall take reasonable steps to ensure that the use of students as couriers is limited to carrying information about the school system, or a particular school, except as specifically provided in the following paragraph. School information may include publications, newsletters, notices, or other printed matter published under the name of the District, the individual school, or the recognized parent/teacher group.

Students may serve as couriers for information generated by non-school organizations, subject to the following conditions: (1) the information clearly states that it is not school-sponsored, (2) the information/activity is student-related, (3) the School Board, or the Superintendent, reserves the right to refuse any request for distribution of such information, on a case-by-case basis, and (4) the distribution of such information is subject to prior approval by the Superintendent or his/her designee.

Parents and/or guardians will be notified at least ten (10) days prior to the District administering a non-academic or non-educational survey to students.

The surveys or questionnaire will be available at the school and on the school/school district’s website so that parents and/or guardians can review the survey or questionnaire prior to it being administered.

Parents and/or guardians may opt-out their child from the survey or questionnaire; and must opt out either by notifying the District in writing or electronically.

Parents who do not opt out their children will be deemed to have consented to the survey or questionnaire.

NATIONAL COMPETITION DONATION GUIDELINES

(School Board Policy # 5100)

1. Introduction

The Milford School Board encourages individual students and school sponsored student groups to enter state competitions, and to then enter national competitions when eligible based on the results of the state competitions. The Board may authorize partial funding by the District for the expenses associated with national competitions according to the following guidelines. The remaining costs to attend the national competition need to come from team fund-raising or through personal funding. The Board specifically reserves the right to fund more or less than the amounts indicated by the guidelines depending on budgetary constraints or other factors that may be considered at the time of request. The Board reserves the right to provide no funding at its sole discretion.

2. General Guidelines

The Board will authorize District funding of \$500 per team or group, or 10% of the total eligible costs needed to be raised, not to exceed \$1500.00, whichever is higher. In no case shall the donation exceed the total expected cost of the trip.

3. Eligible Expenses

Expenses that are eligible for consideration include transportation costs, meals expense, overnight accommodations, competition entrance fees, and other related expenses. Costs for reasonable and educational side trips may be included. For example, if the national competition is being held in Washington D.C., then costs for additional day(s) to visit the Smithsonian would be eligible, while costs for an extra day to go to an amusement park would not be eligible.

Eligible costs are only those that are associated with team or group members, their coaches or leaders, and a reasonable number of chaperones. The appropriate number of chaperones may vary depending on the type of the trip, the location of the trip, and the age group of the student participants. Costs for parents, siblings, relatives, or friends who also choose to go on the trip are not eligible for consideration.

4. Request Format

Requests for donations towards trip expenses shall be submitted in writing to the Superintendent, who will then present it to the Board. The request shall provide a brief overview of the trip listing the itinerary, including any side trips. There shall be a trip budget that details the expected costs for the various categories of expense. The names of the eligible people and their roles shall be included.

(School Board Policy # 5110)

The School District will support the availability and distribution of healthy foods and beverages in all school buildings during the school day.

Competitive foods are defined as ready to eat foods found in vending machines, snack bars, a la carte, fundraisers, school parties, and any other food and/or beverage distributed/sold to students on the school campus during the school day.

The Superintendent/designee is responsible for ensuring that all foods and beverages distributed within the District meet nutritional standards established by state and federal law relative to: (1) nutrient density; (2) portion size; and (3) nutrition targets, as defined in pertinent law.

Exceptions to the Standards:

1. In accordance with the NH Department of Education waiver, Principals may designate a total of nine days throughout the school year in which bake sales may be held during the school day in which foods that are sold are outside the nutrition standards.
2. Principals and teachers will promote the celebrations of holidays and birthdays with foods that meet the nutritional standards through school handbook information, newsletters, and distributions to parents and students.

The Superintendent/designee is responsible for implementing developmentally appropriate opportunities to learn food preparation skills that support nationally recognized research-based nutrition standards. The Superintendent/designee will provide information annually about the policy to the school community.

(School Board Policy # 5120)

Maternal or paternal status shall not affect the rights and privileges of students to receive a public education. Pregnant students shall be permitted to continue in school in all instances when continued attendance has the sanction of the expectant mother's physician. The Board may require a physician's statement of activity limitations.

In the event a student informs a staff member that the student is pregnant, the following general guidelines will apply.

School staff members are reminded that they do not have the same relationship with students that the student would have in a medical setting.

Any staff member who learns that a student is pregnant or is informed of such by the pregnant student will immediately inform the building principal, school nurse and school/guidance counselor who may provide the pregnant student with information relative to medical health facilities, mental health resources, and counseling resources.

Staff members cannot promise that information told to the staff member by the student will remain confidential. Staff members should inform the student that pertinent laws may require the staff member to share the information if the student's health, safety or welfare is at risk.

If a pregnant student is a minor, the school building principal may need to contact state social service agencies. This determination should be made after consultation with the student nurse, school nurse, school/guidance counselor, and other employees whose input is needed.

Any other school district action or response will be made by the building principal, on a case-by-case basis, after consideration of all pertinent information.

PURCHASING

(School Board Policy # 2330)

The Milford School District purchases supplies, equipment and services necessary to support its educational programs. The District is charged with the responsibility to provide the highest quality products and services at the optimum value and service level.

A successful purchasing program depends upon a partnership of the District's Business Office staff, the administration of each school and our suppliers of goods and services. The District and its vendors must share the following philosophy:

Every purchase must maximize the value of the District's resources through timely delivery of competitively priced, quality materials and services.

Only by working together will the District and its vendors assure mutually beneficial business relationships.

1. Purchasing Policy

The function of purchasing is to support the educational program by procuring necessary supplies, equipment and services.

The School Board declares its intention to purchase competitively, without prejudice and to see maximum educational value for every dollar expended.

The School Board assigns the Superintendent the responsibility for implementing the purchasing policy. The primary objectives governing this responsibility are that all purchases fall within the framework of the policy and of the budgetary limitations, and that they be compatible with the approved educational goals and programs of the District.

Purchasing procedures consistent with appropriate local, state and federal statutes, and sound financial management will be developed by the Superintendent/designee.

The acquisition of supplies, equipment and services will be centralized in the District's Business Office, with the cooperation of the administration of each school.

2. Cooperative Purchasing

The Board, at its option, will join in cooperative purchasing with other school districts and the town, through the Board of Selectmen, to take advantage of lower prices for bulk purchasing and to reduce the administrative costs involved in bidding.

3. Local Purchasing

It shall be the policy of the school district to purchase locally, provided goods of equal quality, and at competitive prices, are available from local suppliers. The District is not required to purchase any item locally that can be secured at a saving to the school district from outside sources, nor shall he/she feel bound to purchase locally unless adequate service and delivery can be given by the local supplier.

4. Bidding Requirements

Students shall have the same right to engage in religious activities and discussion as they have to engage in other comparable activities. In general, this means that students may pray in a non-disruptive manner during the school day when they are not engaged in school activities and instruction, subject to the same rules as apply to other speech rights.

On each school day, before classes of instruction officially convene, a period of not more than 5 minutes shall be available to those who may wish to exercise their right to freedom of assembly and participate voluntarily in the free exercise of religion. COMPUTER SOFTWARE AND HARDWARE POLICY

(School Board Policy # 6030)

Personal Computer Equipment Use:

The use of staff owned personal computers is permitted in the School District with prior reasonable notification of the Technology Director or designee. The use of staff owned equipment is subject to a yearly verification of the latest operating system patches and virus protection, which will be provided if needed. The systems will also be limited to Internet access with basic local network access, such as School web E-mail and Power School. The maintenance and repair of staff owned personal computers is the responsibility of the owner of the system.

Items that are restricted from use on the District wide networks are servers, networking equipment and non-licensed software.

The use of personal printers is allowed, however the maintenance, repair and troubleshooting related to the printer is the **sole** responsibility of the employee.

Computer Loan Program:

The Computer Loan program has been established to aid staff members in their familiarization with the computers they will be using in their classrooms or workplace. This program will be available during the summer months, however, exceptions will be made during the school year if required as part of the staff members' daily activities. The staff member agrees to take responsibility for reasonable care and safekeeping of the computer during the term of the loan. Milford School District retains liability for maintenance or loss of the computer due to theft or catastrophe except if caused by negligence or willful actions of the staff member. In the event of loss or damage, the staff member agrees to cooperate fully with the District, its insurance agent and insurance carrier to provide complete information regarding the loss or damage. Staff member further agrees to refrain totally from using any software not provided in advance by the District and is responsible for becoming familiar with the operation of the equipment.

Before removing any hardware from the District, the staff member must fill out and sign the current hardware check out form available from the building Principal and receive signature authorization

from all those listed on the equipment check out form. The staff member also must agree to return the equipment by the designated time indicated on the equipment check out form. Staff members who use the computer during the school year will return the equipment before the end of the school year for updates and inspection.

District Provided Software for Home Use:

There are a number of software licenses that allow for the dual use of software at home and school. Software ranges from anti-virus programs to office productivity suites. Given that certain restrictions may apply to the use of such software, staff members are encouraged to contact the Director of Technology for guidance.

Care for District Computers:

Users of District computers are expected to respect the District's property and be responsible in using the equipment. Staff are to follow any District instructions regarding maintenance or care of the equipment. Staff members may be held responsible for any damage caused by the staff member's intentional or negligent acts in caring for district computers under the staff member's control. The District is responsible for any routine maintenance or standard repairs to district computers. A staff member is expected to timely and properly notify the District of any need for

service.

Staff members are not to delete or add software to District computers without District permission. Due to different licensing terms for different software programs, it is not valid to assume that if permission is given to copy one program, then it is permissible to copy others. The use of non-licensed or "pirated" software is strictly prohibited.

ACCEPTABLE COMPUTER, NETWORK, AND INTERNET USE POLICY

(School Board Policy # 2295)

The Milford School District offers students and staff access to various technologies and the Internet to use for teaching, learning or other school district business. The opportunity to use the network goes "hand in hand" with the responsibility to use computers and the Internet properly. Access is a privilege, not a right, and that access requires responsibility. Safe and responsible use of the Internet and the devices that connect to it is a priority of the Milford School District.

For purposes of this policy, "user" means any person authorized to access the School District's computer systems or networks including, but not limited to, the Internet. Users are expected to demonstrate ethical behavior that is of the highest order when using technologies and when accessing the Internet for teaching, learning and other school district business. Users are also expected to follow all guidelines stated in this policy as well as any additional guidance provided verbally or in writing by IT staff, teachers or administration.

Use of the Internet

Resources available on the Internet vary in quality and appropriateness for school purposes; therefore, it is important that all users make sure that Internet materials and information are school appropriate. Unlike other teaching and learning materials, the very nature of the Internet may not allow for the same formal selection processes for Internet resources as for textbooks and library resources, so the responsibility for appropriateness rests with users.

The use of the Internet by students is for research and other educational purposes as assigned by a teacher or related to school curriculum and activities. Within the guidelines of the Children's Internet Protection Act (CIPA), freedom of speech and access to information will be honored.

Activities not permitted include, but are not limited to:

1. Sending or displaying offensive messages or pictures ("If you cannot wear it on a tee shirt in school, it is not allowed on a District's computer screen");
2. Using obscene or offensive language;
3. Harassing, insulting, or attacking others online or any other behavior that can be considered cyberbullying;
4. Damaging or disabling computers, computer systems or computer networks;
5. Violating copyright laws;
6. Using others' passwords, name or accounts;
7. Trespassing in others' folders, work or files;
8. Engaging in illegal activities;
9. Hacking of any kind;
10. Soliciting or proselytizing for commercial ventures, political or religious causes, outside organizations or other non-School business related purposes;

11. Copyright infringement, loading or downloading non-licensed software applications like screensavers, games, graphics/multimedia utilities, etc. onto school computers;
12. Signing up for any promotions or catalogs and leaving messages or anything else on the Internet that requires your name or anyone else's name or other personal information and that is not related to legitimate school business.
13. Loading, downloading or accessing any content prohibited in an educational setting as determined by the Superintendent/designee.

Internet Safety

The Children's Internet Protection Act (CIPA) and the Protecting Children in the 21st Century Act mandate specific strategies to foster safe and responsible use of technologies and to prevent adverse computer and Internet use by school-age children. The District will allow students and staff to access instructional resources and information from the Internet using District technologies and networks while protecting them from cybercrime and information inappropriate for minors. It will take the following steps to promote safe and appropriate online behavior:

1. **Internet Policy agreement**

This Internet policy will be provided in staff and student/parent handbooks and users will be required to agree to adhere to the policy annually with a signature on the staff and student handbooks and again, each time they sign onto the network by accepting the electronic acceptable use reminder.

2. **Content filtering**

The District will use a content filtering package prescribed by and compliant with CIPA to block obscenity, pornography and other sites deemed harmful to minors.

While the District will make every effort to choose and use appropriate filtering software, it recognizes that filtering is not 100% effective and cannot guarantee that all objectionable material will be blocked. The District also recognizes that the filter may block legitimate material that the student may access outside of school or perhaps not discover it at all.

3. **Supervision and monitoring**

Teachers and staff will monitor, within reason, the use of computers, other technologies and the Internet. During school, teachers will guide students toward appropriate materials. Administrators, or their designees, may review files and communications (including electronic mail) without notice to ensure that users are using the system responsibly. Users should not expect that files and information stored on devices, servers or disks are private.

4. **Instruction**

The District will develop and implement Information and Technology Literacy curriculum and instruction that promotes safe and appropriate online behavior including interacting with others through social networking websites, chat rooms and other forms of messaging, and cyberbullying awareness and response.

Policy Violations

Any actions that might harm computer equipment, software, data, another user, or the Internet, or that show disregard for the proper procedures set up for network access will not be tolerated. Inappropriate use may result in limits or a suspension of the user's technology use or Internet privileges, disciplinary action, and/or legal action in accordance with the law, Board policy and administrative regulations. Further, any users of the School District's computer systems or networks who intentionally violate the District's policy and who intentionally damage the computer systems or network or misuse the Internet shall assume legal and financial liability for such damage.
